Outsider

Target Users

- Someone who wants to experience a robot dance party.
- Someone who has never been to a club before.

Features

- Pressing the left arrow and the right arrow raises the robot's arm.
- If the robot is enjoying dancing, a green light comes on its head, otherwise a red light comes on.

Concepts and Ideas
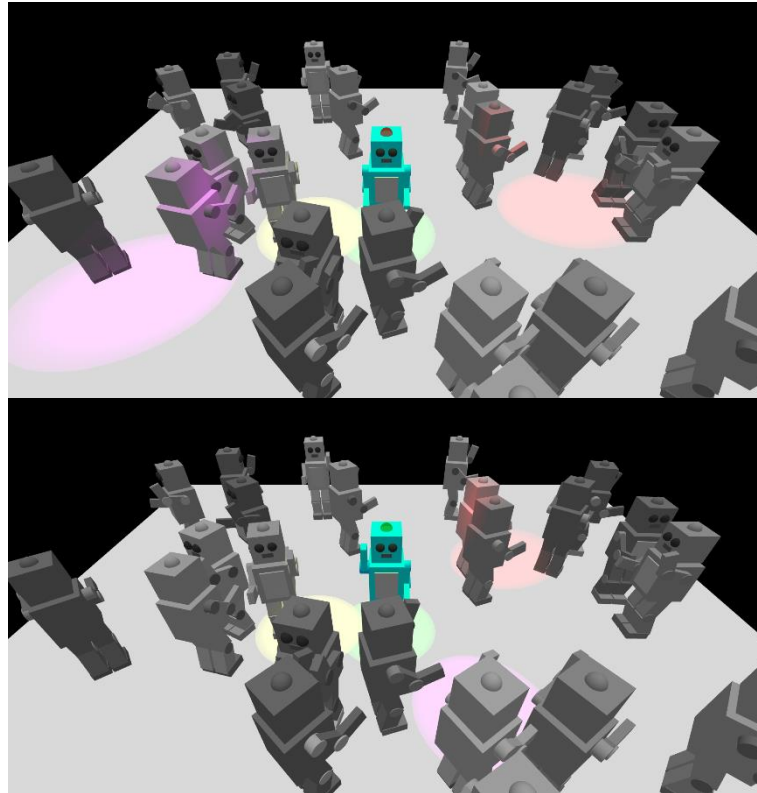

- Visual Concept

Toy robot and the flamboyant lights and dancers of the club.
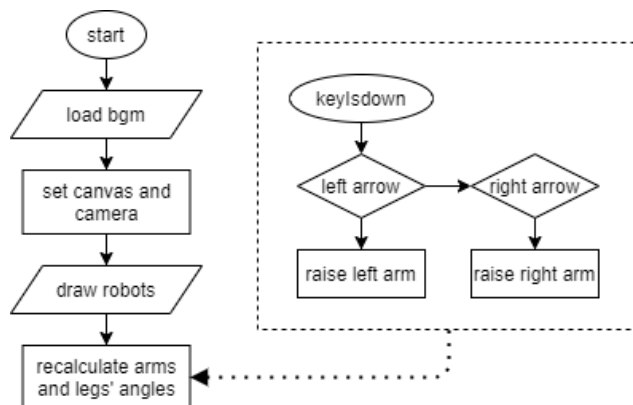

- Idea

  The first thing that came to mind when I heard about 'Dancing' was the club. As a person who had never been to a club, I could imagine myself standing bewildered, not knowing what to do with everyone else dancing if I went to a club. I put the awkwardness of the scene in the project.
